

Using Interactive Infographics to Promote Problem Based Learning for the Development of Key Transversal Skills

Newsletter

Issue No. 3

Skill-Pics promotes the development of essential transversal skills to thrive in the 21st century world.

Compendium of Interactive Infographics

The Skill-Pics Infographics are already available. Try out these resources if you want to improve your skills on teamwork, leadership, critical and creative thinking, problem solving, innovation, social impact or digital literacy.

In-service Training Programme

If you are a VET tutor or you are just interested in knowing more about online learning and how to create digital resources for teaching, such as interactive infographics, we invite you to make use of the Skill-Pics in-service training programme.

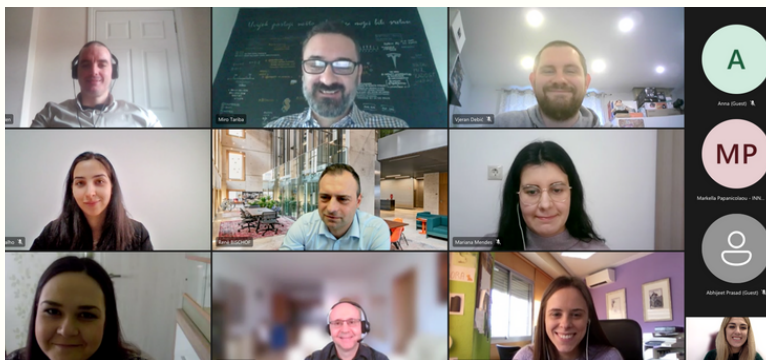

Skill-Pics MOOC

The Skill-Pics e-learning platform is where you can find all of the Interactive Infographics and In-service Training Programme. All you need to do is register and you'll have free complete access to all of these materials.

Training Events

Skill-Pics has held two training events online for VET tutors. From March 8th to the 10th, and from May 31st to June 3rd, VET educators from all partner countries took part in these online events, where they were able to develop their digital competences, test the Skill-Pics resources, and learn, discuss and share ideas and good practices with professionals from other countries.

Next Steps

With just a few months left until the end of the project, we will hold a final conference in Austria and a Skill-Pics Workshop in every partner country: Austria, Ireland, Czech Republic, Spain, Croatia, Cyprus, Portugal, and Germany. If you want to participate, please contact your local organisation.
